

## Kennedy-Pro - 1/2 inch Drive, 20mm Bi-Hexagon Standard Length Sockets - 12 Points

Bi-Hexagon Sockets 12 point - side drive design gives a higher torque than normal sockets, grip worn nuts and will not round off existing nuts. All have a ball-retaining groove on each face of the square drive, which ensures a positive fit with accessories. Require only a one-twelfth turn to engage the next point of the socket.

| Specifications   | Details               |
