

MARK 10 M2-100 FORCE GAUGE| 100 LBF / 50 KGF / 500 N CAPACITY FORCE GAUGE

Series 2 digital force gauges are designed for basic tension and compression force testing applications up to 500 lbf (2,500 N). Peak tension and compression readings are reliably captured via the gauges' $\pm 0.5\%$ accuracy and 500 Hz sampling rate. A backlit graphic LCD displays the current, peak tension, or peak compression reading. The gauges are overload protected to 200% of capacity. An ergonomic, reversible aluminum housing allows for hand held use or fixture mounting, rugged enough for applications in both production and laboratory environments. Series 2 gauges are directly compatible with Mark-10 test stands and grips.

Specifications	Details
Brand	Mark-10
SPC output	Yes 
Type	Digital Force
Range	100 lbf / 50 kgF / 500 N
Accuracy	$\pm 0.5\%$ of full scale
