

Kane 3200 Differential Pressure Meter

Do you require a dependable, accurate method of testing differential pressure ratings? The Kane 3200 is an easy-to-use, easy-to-apply instrument that allows you to perform the necessary testing without any hassle. The Kane 3200 has an integral magnet that allows it to be easily attached to a metal surface, allowing you to perform testing procedures without even holding it! It also has only two buttons, allowing you to easily switch between scales and zero with the press of a single button.
