

Elitech RC-51H | USB Temperature And Humidity Data Logger | Pen-Styled Auto PDF | 32000 Points

The Elitech RC-51H Waterproof USB Temperature and Humidity Data Logger is perfect for use in labs, fresh food cabinets, medical cabinets, and pharmaceutical cabinets. It can be used for temperature monitoring and recording in cold chain management applications that call for fast data loggers. Every Elitech USB Temperature and Humidity Data Logger is robust and long-lasting. Every component is put through a rigorous quality examination in accordance with FDA and CE guidelines. A 2-year battery life, a big memory capacity, an LED display, multifunction LCD, and auto-data report generation are all features of every Elitech Waterproof USB Temperature Datalogger. This makes the temperature-sensitive goods monitoring device, the RC-51H Temperature&Humidity data logger, practical and effective.

Specifications	Details
Temperature Range	-30Â°C~+70Â°C
Resolution	0.1Â°C
Humidity	10~95%RHH
Resolution	0.1% RHB
Logging Rate	10 sec ~ 24 hr
Memory Capacity	32000 Points
Power Supply	ER14250
