

Elitech Tlog B100H | Wireless Temperature And Humidity USB Transport Data Logger | With LCD Display

The Elitech Tlog B100H Temperature and Humidity Data Logger is designed to track and record the temperature and humidity of goods, including food and medication, while they are being stored and transported. It can also be used in every step of the cold chain logistics process, including freezers, cooler trucks, cooler bags, cooling cabinets, medical cabinets, and labs.

The USB connector, LCD screen, and two touch-sensitive buttons of the Elitech Tlog B100H are intended to deter inadvertent touches. By pressing a button, you may check the status and parameters of the device and adjust its settings, including its start/stop modes, numerous thresholds, and storage modes. The PDF report that is automatically created can also be seen without the need for the ElitechLog software.

Specifications	Details
Temperature Range	-30°C ~ +70°C (-22°F ~ +158°F)
Resolution	0.1°C / 0.1°F
Sensor Type	Internal temperature and humidity combined sensors
Memory Capacity	32000 points (MAX)
Logging Rate	10 seconds ~ 24 hours (10 minutes by default)
Dimensions	115.5mmx47mmx16.2mm (LxWxH)
Battery	CR2450 3.0V single use lithium battery
Protection	IP65
Weight	70g
