

Elitech WJL-6000S | Refrigerant Leak Detector | HVAC Air Condition High Accuracy

WJL-6000 refrigerant leak detector upgrade version. WJL-6000S had numerous enhancements to achieve faster and more dependable detection. Its ultra-low power consumption circuit design and newly developed high-precision MIC ensure considerably more steady operation and long-lasting batteries. Its maximum sensitivity also rose to 5g/yr. Users can more clearly see the level of leakage thanks to the five LED indicator lights.

Specifications	Details
Operating Temperature	0 Â° C-52 Â° C (30 Â° F to 125 Â° F)
Battery Life	about 50 hours of normal use
Response Time	instantaneous
Probe Length	7.87 (in)
Dimensions	1.37 x 1.37 x 5.90 inches
Power Supply	6V DC, 4 AAA alkaline batteries
