Norton Saint Gobain S2403 50mm VORTEX RAPID PREP SCM FINE

P.O Box 25898 Sharjah

United Arab Emirates

Rapid Prep is the new Norton line of surface conditioning products (SCM). They are comprised of synthetic, non-woven fibers that are bonded to another material in order to give them more body and the appropriate rigidity for the application. This enables them to be used in numerous forms such as belts, quick-change discs, discs, rolls, and specialties. Scrim (hook & loop) and Y-wt. polyester are the bonded backing. Norton Vortex - Proprietary agglomerate grain technology that cuts faster and finishes finer, grit for grit. Improves efficiency with eliminated steps! Rapid Prep Low Flex (LF) $\hat{a} + \hat{b} + \hat{c} +$

Specifications	Details
SKU	NOR2453318GTSR
For Use On	Aluminium
Disc Diameter	50 mm
Weight	1
